RE: Ind. No. 95 Cr. 31 (FB)

Dear Judge Block:

On March 26, 1996 you were kind enough to issue an order to the Warden of the Metropolitan Detention, Brooklyn, N.Y AND his AGENTS AND EMPLOYEES regarding myself due to a severe skin and scalp condition.

On April 4, 1996 that Warden had me taken out of the facility to see a Dr. Weston, dermatologist who verified my condition as well what was needed.

On May 22, 1996 the STAFF ATTORNEY for that institution confirmed that the order will be followed in a letter to my ATTORNEY. AT THAT TIME Andrew WEINSTEIN and James La Rossa.

Since that time I have received the items listed

by the doctor with no charge.

I have now been at U.S.P. Allenwood for approx-  
imately 9½ years in which there have been different  
doctors as well as wardens. It is only at this time  
when I went to review my supply did the medical  
department deny them to me. They said the items  
are not on their formulary. This no reason. As you  
can see they told me to go to sick call when the  
problem returns. There is no reason why I should  
wait until it returns and then I will suffer in  
pain and discomfort for no reason.

On July 6, 2007 I gave a letter and all the enclosed  
copies to the Assistant Warden, Mr. Eg who read it and  
was negative to me and said he would speak to medical  
and yet he is the head of all medical.

It now seem that I might be transferred shortly  
and would ask that Your Honor please issue a new  
order that states the same order, however, to include any  
federal institution that I am located in at to run until  
my release date.

I thank you for your time and consideration  
in this matter that is so important to my health  
and ask that if you grant this letter/motion  
that it be mailed to me here at U.S.P. Allenwood  
at your most earliest convenience, thank you.
